

EXPRESSION OF INTEREST

DESIGNING & SETTING UP OF A BUSINESS INTELLIGENCE PLATFORM

The Mauritius Chamber of Commerce & Industry (MCCI) is inviting potential firms to submit an Expression of Interest (EOI) to design and set up a business intelligence platform.

The Goals and Objectives of the Business Intelligence Platform

- i.** To provide a tool set for businesses in the SADC regions to absorb, organize, discover, and analyse data to reveal actionable insights that can help improve decision-making.
- ii.** To reformulate business strategies to adapt to the new business eco system in the SADC region.
- iii.** To develop a synergy among all economies of the SADC in terms of economic indicators, sectoral analysis, and to compare the competitiveness of sectors across various economies of the region.
- iv.** To develop and create complementary synergy, investment & business opportunities between countries through G2G and B2B partnerships
- v.** To develop a coherent regional cooperation and integration of the SADC region in terms of availability of concurrent business and economic statistics, trade, import and export statistics, data analytics to help countries to reposition themselves as centres of excellence in key sectors.

To demonstrate the feasibility of the project within SADC, MCCI will undertake a pilot project for Mauritius with the help of UNDP.

To that effect, prospective firms are requested to submit their EOI not later than Tuesday 17 November by 4pm to mcci@mcci.org

Only shortlisted firms will be contacted.

The MCCI reserves the right not to go forward with a Request for Proposal on receipt of EOIs submitted.
